YOUR 2022/23 COUNCIL TAX EXPLAINED INSIDE

Dear Resident,

The last 12 months have been difficult for all of us, as the second year of the pandemic has affected the way each and every one of us lives our life. As I reflect on that period, I take pride in the way your Council has continued to deliver excellent frontline services in these extremely testing times.

We've moved forward with our plan to improve biodiversity on the Adur estuary at the New Salts Farm and Pad Farm sites we purchased for residents to enjoy. That work has already helped us secure Government funding to begin our pioneering ecological project to restore the sites as salt marsh and wetland so that they become natural flood defences - the first time such a grant has been awarded to a local authority.

We've built vital new homes for residents, creating the first council housing in the district for 30 years. We recognise that there is a real challenge in Adur for some people to find affordable housing. The building of Cecil Norris House in Ravens Road, Shoreham, is an example of what we're doing to tackle the problem.

We've invested in our parks and gardens, helped residents and businesses to deal with the impact of Covid and kept our open spaces clean and clear.

All this and much more has been achieved despite Adur's share of the Council Tax coming to less than £1 a day for those living in an average Band D property in the district - and while we continued to balance the books. None of this could have been achieved without the tireless efforts of our Council staff, who are continuing to do everything they can to make Adur better for all who live, work and visit here.

Neil Parkin

Leader of Adur District Council

** For Adur DC services, based on an average Band D household*

ADUR DISTRICT
COUNCIL

**First council
homes built in
Adur for more than
30 years**
